Subject: Hearing next Thurs on use of QA, peer review at Dimock, Range, and Pavillion

Just heard on the natl HF coord call that there is a hearing before the House Science (?) Committee next Thurs where they have asked Fred H to talk about how EPA has used QA, information mgmt, and peer review guidelines in the Pavillion, Dimock and Range investigations. According to Jeanne Briskin, ORD will not be testifying as they have not been involved in the Dimock or Range investigations and view Region 8 as the lead for Pavillion. It's unclear who will testify. David Piantanida is reportedly working on testimony. We should make sure it is reviewed here for accuracy.
